

RIVERSIDE PRIMARY ACADEMY ADDITIONAL SPORTS FUNDING 2013 – 2014

Our academy was allocated £5329 during the academic year 2013-14. We have a duty to spend this money wisely in a way that enhances the long term provision for Physical Education/sport and increases the activity levels of children within our school.

We have spent our funding as follows:

£3960	To send an additional class to swimming lessons for the entire year. This increases activity lessons, it also gives the children a skill for life and it gives them the opportunity to learn to swim for enjoyment in the hope that they will continue swimming through their adult life. Cost of lessons and staffing overtime.
£1089	On-site training and coaching in the latter half of the year for the children to take part in but for the staff to learn from. The aim must be to train the adults in school to become skilled in areas within sport so that they can continue to provide the skills long after the funding has gone.
£280	Release time to allow Mr Brown the opportunity to monitor the effectiveness of our spending on sport within school, and make plans for the development of sport in the future.
